

Development

Do you like to be continually challenged and work in a project-based environment?

We do too!

CSC Corptax® is a market leader in leading-edge commercial tax software and process solutions. We're transforming tax through technology, business process expertise, and award-winning support. Our clients achieve breakthrough performance using the first and only single system on the market for end-to-end tax. Our unmatched automation aligns processes, enhances speed and transparency, improves analytics, and lowers risk across the tax life cycle. Corptax provides solutions to a multitude of Fortune 1000 firms, including more than 50% of the Fortune 500®, and has been nationally recognized as one of the top companies to work for in Illinois and Texas.

People choose Corptax because we're encouraged and empowered to take initiative to solve problems, build relationships, and make a difference for those we serve. If you like partnering with in-house experts, learning through teamwork, and want to be part of a growing business transforming corporate tax, read on to learn more about our team.

Software engineering

Software engineering at Corptax is core to how we serve our customers and is one of our differentiators in the marketplace. Our innovative, reliable, and award-winning tax automation solutions are built on a culture that emphasizes teamwork, agility, and the ability to think beyond the obvious by leveraging the experience and tenacity of our people.

At Corptax, successful Software Engineering team members should have a strong working knowledge of the latest Microsoft tools and technologies used to develop .NET web applications. You'll play an active role in the design and development of features for our cloud-based commercial tax software. You'll also help identify and leverage exciting new technologies, define best practices, and guide the optimization of a large and growing technology portfolio. Any company can build an application, but we're striving to deliver an innovative end-to-end tax platform that enables business agility.

Technology project management

Corptax's Technology Project Management Team comprises intelligent and energetic self-starters who are responsible for evaluating, planning, and executing multiple simultaneous projects. They excel in a highly autonomous environment and have a passion for driving value through project delivery. We hire project managers at Corptax to be accountable for successfully meeting the timelines, budgets, scope, and quality of projects, as well as communication, adoption, and acceptance of the enterprise change introduced by each project. Working as a project manager at Corptax is an extremely fulfilling endeavor, as we're using leading-edge technologies, and have access to the best available resources. Do you want a challenge that provides you with the satisfaction of a job well done? Then come work with us.
